FRANKE

FRANKE GROUP

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

الفولاذ المقاوم للصدأ

قدمت شركة فرانكي ١٠٠ عاما من الخبرة في تصنيع وتشكيل الصفائح الفولاذ المقاوم للصدأ. وقد أنشئت في سويسرا. وكانت الأولى بالعالم عام ١٩١١ واصبحت بذلك الرائدة بالاستثمارات في مجال الابتكار والتطور التكنولوجي مما جعلها الشركة الرائدة لتقدم مميزات غير محصورة في المواد والحلول حسب الطلب.

STAINLESS STEEL TRIED & TESTED

Franke offers a 100 years experience in manufacturing stainless steel. In 1911 the first sheet-metal fabrication has been established in Switzerland. Consequent investments in innovation and technological development enables Franke to offer exclusive material features and custom-made solutions.

FRANKE GROUP

The Franke Artemis Group conducts its worldwide industrial business through Franke Kitchen Systems Group and Franke Commercial Systems Group.

In 2011 the Franke Artemis Group generated consolidated revenues of USD 3 billion. The Franke Artemis Group also manages an extensive real-estate portfolio (Franke Artemis Real Estate Group) in Switzerland and holds various strategic participations in listed Swiss companies (Franke Artemis Asset Management Group).

Franke Kitchen Systems Group

Franke Kitchen Systems

Franke Kitchen Systems is the world's leading provider of intelligent systems for domestic kitchens. Around the globe more customers place their trust in us than in any other manufacturer. Based on years of experience and specialist knowledge we establish rewarding and lasting partnerships.

Franke Commercial Systems Group

Franke Washroom Systems

Franke Washroom Systems is a world leading provider of intelligent washroom solutions to the public, semi-public and commercial sector. We continually raise our capability and performance in reliability, service, innovation and know how, enabling our professional customers to set benchmarks on their own.

Franke Foodservice Systems

Franke Foodservice Systems is the world's leading provider of comprehensive systems and services for the foodservice industry. We have almost 40 year's global experience in supporting the quick-service industry in optimising their methods.

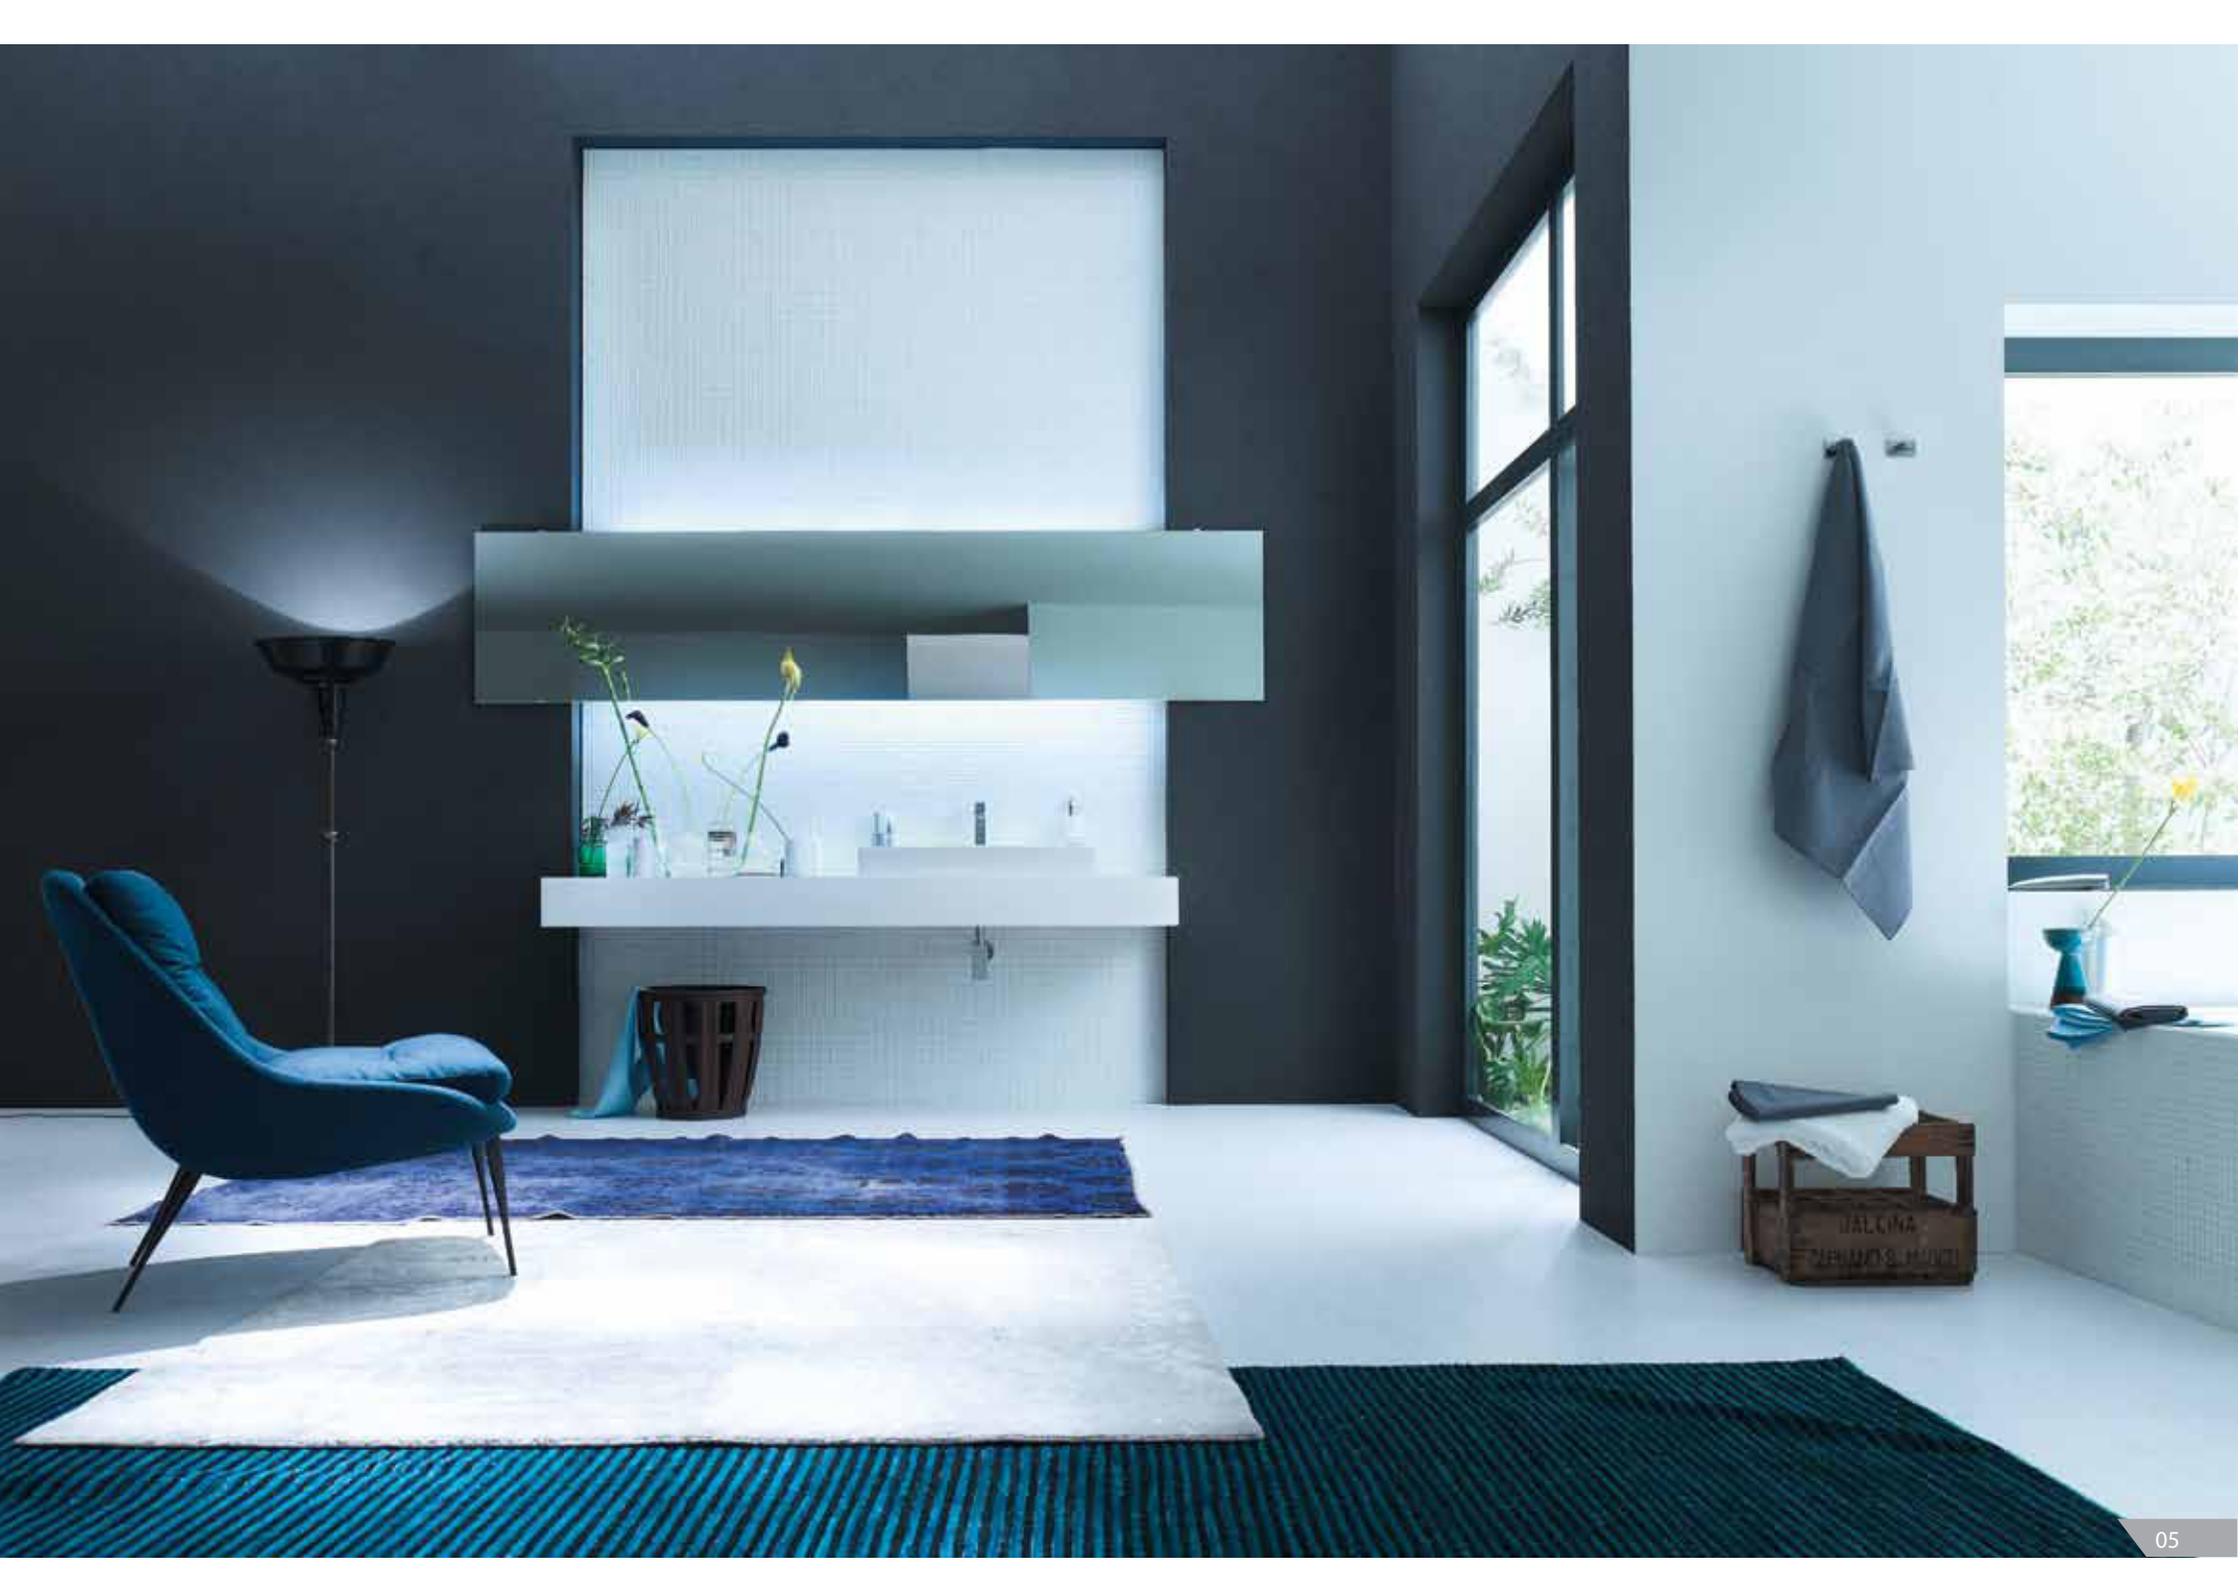

Franke Coffee Systems

Franke Coffee Systems is a world leading provider of intelligent coffee systems. We serve our partners through innovation and customised solutions, enabling successful service concepts and the fine art of coffee-making.

Franke Beverage Systems

Franke Beverage Systems is the world's leading provider of intelligent beverage systems. We offer innovative, effective and environmentally friendly products and services which add and retain values for our partners.

STAINLESS STEEL - ADVANTAGES IN AN OVERVIEW

RUST-FREE

Rust can only occur due to the action of outside influences

ACID-RESISTANT

Withstands the action of all commonly in households used acids

HYGIENIC

Easily disinfected against bacteria and viruses

EASY TO CARE

Cleaning is fast and simple - even with large amounts of accumulated dirt

NEUTRAL
COLOUR-TONE

Timeless in design - can be combined easily with other materials

VANDAL-RESISTANT

Highly durable against deliberate physical attack

HEAT
FLAME-RESISTANT

Cigarettes and other hot objects do not leave a mark on the surface

EASY TO REPAIR

Can be repaired on site if damage does occur

100%
RECYCLABLE

New stainless steel material is made of a minimum of 65 % former stainless steel products

الفولاذ المقاوم للصدأ - المزايا في لمحة عامة :

مقاومة للصدأ

يمكن أن يحدث الصدأ فقط نتيجة لحالات من التأثيرات الخارجية

مقاومة للأحماض

يقاوم عمل الأحماض المستخدمة بالمنزل

سهولة النظافة

سهولة التعقيم ضد البكتيريا والفيروسات

العناية

تنظيف سريع وبسيط - حتى مع كميات كبيرة من الأوساخ المتراكمة

اللون محايد

إختيارات غير محدودة في التصميم - يمكن الجمع بسهولة مع مواد أخرى

مقاومة التلف

دائم ضد الإتلاف والخراب ويعتمد عليه

مقاومة
المواد المشتعلة

النار بالسجائر والأجسام الساخنة الأخرى لا تترك أثرا على السطح

سهولة الإصلاح

يمكن اصلاحها في نفس الموقع

100% قابلة
لإعادة التدوير

تتكون مادة الفولاذ المقاوم للصدأ الجديدة لا تقل عن 65% من المنتجات القديمة من الفولاذ المقاوم للصدأ

THE FIRST STAINLESS STEEL SHATTAF

الشطاف الأول بالعالم الذي صنع من الحديد الغير قابل للصدأ

FRANKE ECOPLASTIC
Cartridge FRANKE Widd made
in non-toxic plastic.

FRANKE Stainless Steel
Stainless Steel with a minimum
percentage of lead.

FRANKE LIVEDRIVE
Clutch system for the SS Spring Grade 301
at low-friction. Smooth and fluid
movements of the handle are assured.

NEOPERL® CASCADE®
Two aerators are provided in the box
(versions: open and 5 l/min).

-50%
FRANKE WATERSAVING
Dynamic flow regulator. The lever
elevation is easily controlled halfway so the
water consumption decreases by 50%.

Body Stainless Steel
Franke Bright Body Made From
SS Grade 304 (18110)
Bright and Shiny

PARIGI® PARINOX® SOFTPEX®
Highly resistant hoses with superior
inner hygienic properties.

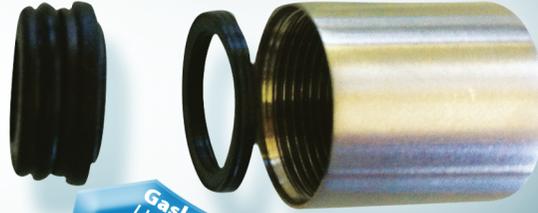

Spring- Unique combination of hardness and toughness.
corrosion resistance Made from Austenitic Stainless Steel Grade 301
Std. ASTM A313/ A313 M

Body: the first Shattaf Head in the world -
Unique Design made from Stainless Steel Grade 304(18/10), Elegant , Light weight with Full Warranty 2 Years.

Handle
Unique Handle/ Screw made from Stainless Steel Grade 304(18/10)
SOFT HANDLING, ever made
With adjustable Steady water flow

Gasket
Unique, O- ring gasket : made from, ETHYLENE-PROPYLENE (EPDM)-With Excellent resistance to all kind of water, Hardness-Shore A= 70
ASTM D1418 Designation

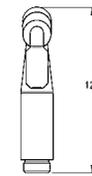

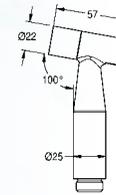

Shattaf

- Shattaf head is made of stainless steel material
- Complete with Shattaf holder (BD001-N) and 1.2meters chrome plated hose with inner PVC lining
- 128x25x62 mm

SHTX001N

2000106367

يتميز بالسوستة تتحرك أفقياً لدفع الماء
تجعل حركة المقبض كالحرير والفريد
لدفع الماء كالرغوة الناعمة ويتميز
بسهولة التحكم بكمية الماء

4 مميزات فريدة ليس لها نظير
4 Unique Advantages

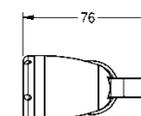

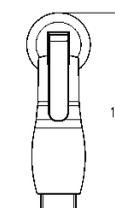

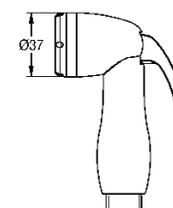

Shattaf

- Shattaf Head is made of ABS plastic material
- Complete with Shattaf holder (DF439) and 1.2 meters Braided hose made of PVC white material
- 115x37x76 mm

SHTX439

2000106369

FRANKE HOTEL AND RESIDENTIAL ACCESSORIES IN STAINLESS STEEL

Although they contribute to only a fraction of a bathroom, no bathroom is complete without accessories. Franke's assortment of 304 Stainless Steel Accessories puts the finishing touches to a perfectly matching range of designs. Each range is created with different styles in mind, making it easy for a designer to integrate these accessories with almost any kind of design concept.

Stainless Steel

High-quality Material

Stainless steel is considered to be the best material in terms of hygiene and durability all over the world. It is not only resistant to moisture and most acids, it also stands out due to its hardness, durability, high tolerance of heat and cold, and hygienic characteristics. Dirt and oil can easily be washed from the smooth, pore-free surface. Scratches and grooves on covers lose their sharp edges quickly and blend in to the surface.

Stainless steel contains at least 10.5% chromium (Cr) and no more than 1.2% carbon (C). They form a self-regenerating surface layer (passive layer) that gives the material its resistance to corrosion, thereby ensuring significantly improved characteristics compared to unalloyed steels. Franke uses steels with higher chromium content and nickel as an additional alloy component for its sanitary fixtures. This combination further increases resistance to corrosion.

Source: Yasar Renkci, dipl. Engineer Metallurgy TU, Franke

Characteristics of 304 Stainless Steel

- High level of corrosion-resistance
- Non-magnetic
- Acid resistant, hygienic and easy to clean

All accessories are available in Satin Finished and High Polished.

ACCREDITATIONS

Recertified in 2012, having held the prestigious accreditation since 2008, ISO9001 is a rigorous set of standards recognised globally. It provides our customers with the peace of mind that Franke has demonstrated the highest quality control of activities to ensure that the needs and expectations of our customers are met.

Most of our products are CE marked which demonstrates that they are suitable to be sold in the European union as they conform with the essential requirements of the applicable EC directives.

Franke manufacture, distribute, commission and service a comprehensive range of water efficient washroom products including low flush, ultra low flush and waterless WCs and urinals. These help to significantly reduce the amount of water used in washrooms and can assist specifiers in achieving BREEAM points for specific projects.

The Enhanced Capital Allowance (ECA) scheme enables businesses to claim up to 100% first year capital allowances on investments in technologies and products that encourage sustainable water use. The Water Technology List (WTL) provides details of products that qualify for this. Look for the logo on applicable products.

BS EN 997 - This British standard outlines the requirements for WCs from the perspective of construction and performance, emphasising functional criteria. All the WC's are manufactured at our subsidiary Franke Sissons in United Kingdom and have met the performance criteria for 4, 5 and 6 litre flushing.
